Art is a journey. My mind is full of images and feelings that need to be released in whatever medium that works. I work in watercolour, acrylics, pastel and scratch art. I love to create, it exhausts me, releases me, satisfies me, but not for long, there is always more on my journey.

ga_rattai@hotmail.com

My first foray with the arts began in 1995 with porcelain, an oil based medium much like watercolors, so the move to watercolor a few years later was an easy transition & then to oils several years later. When I retired from my own company, the creative spirit needed another outlet so I designed jewelry. Thus far, I have used the sale proceeds of my art to have 4 water wells drilled in Africa and I am part way to the 5th one.

Irene Malone

"Glass with Class"
69072 Hwy 206
204-299-5616
toppityhill@gmail.com

Irene started painting landscapes with oils, and then went to landscapes and abstracts in acrylics. Then she discovered the world of glass where she still applies some of these techniques using glass paint as well as the colors in the glass to her advantage. She still turns out landscapes and abstracts but in both fused glass and stained-glass pieces. As well she does jewelry and buttons.
