

Sewer Connection Presale for the Henderson Catchment Area

Letter of Interest in Preferred Option

As we work to gather interest from those participating in the sewer connection presale as addition to taxes as a Local Improvement District, we ask that you check off the box below and complete this form, then send back to our office via email/mail so that we can record your interest.

☐

Payment in full

I am interested in making payment of the infrastructure cost (includes one connection fee and one curb stop) in full to the RM of St. Clements in the amount of \$14,302 and understand that this presale is on a first come first serve basis until May 31, 2022 or until all 290 REU's are sold.

☐

Addition to taxes as Local Improvement District

I am interested in adding the infrastructure cost (includes one connection fee and one curb stop) to my tax bill for 20 years as a LID. I am aware that this option will be determined if feasible after the deadline of May 13, 2022. The RM of St. Clements will provide further information on exact costs which I will then have until May 31, 2022 to make the deposit and for the LID to be added to my tax bill.

☐

Interested in more information

I am interested in attending the information session offered at the end of May to gather further details
