

*Together, we can continue to  
grow our great community!*

## MY PRIORITIES INCLUDE

1. Ensure initiatives underway - the Waste Water Management Plan & the Activity Centre are completed & implemented
2. Focus on clean, safe neighbourhoods to promote healthy living for young families and active lifestyles
3. Safe transportation for both vehicles and active transport such as walking and cycling
4. A focus on exploring aging in place options for seniors

I will work collaboratively with all members of Council to ensure positive outcomes, bringing my years of experience in the government sector to ensure we focus on true progress for our community.

I will encourage transparency and enable residents to have input on matters that affect our community and municipality. Open communication and dialogue with governance activity is critical to truly reflect the issues of residents.

I will sincerely appreciate and kindly ask for your support on Election Day where together, we can be a part of growing our community.
