that promote positive change to benefit the
environment, the community and active living.*

IF ELECTED I PLAN TO:

- * **ATTRACT INVESTORS TO BUILD A COFFEE SHOP AND GROCERY STORE WITHIN THE HAMLET OF EAST SELKIRK.**
- * **AFFORDABLE SENIOR HOUSING IN COMMUNITY.**
- * **RALLY COUNCIL TO ADD A LONG OVERDUE SIDEWALK ALONG PTH 212 THAT CUTS THROUGH THE COMMUNITY.**

ACCOMPLISHMENTS I WAS PART OF MY LAST TERMS AS COUNCILLOR 2006-2010 & 2014-2018

- * **SUPPORTED A GARBAGE & RECYCLING PROGRAM** where both are picked up for \$100 each per year or \$8.33 a month.
- * **LAND FILL CELL** Saved for and expanded the cell that was managed by the RM with much of the work done by the Public Works staff. This effort saved our residents three quarters of a million dollars and prevented a mill rate increase.
- * **TRANSFER STATION EXTENDED HOURS** to supply better servicing to our citizens and is now looking at other recycling options to further our recycling abilities in the RM.
- * **GRAVEL INCREASE FOR ROADS:** supported spending more on gravel budget to improve roads.

- * **PUBLIC WORKS EQUIPMENT** increased inventory.
- * **FIRE DEPARTMENT NUMBERS INCREASED** to twenty five members per department and have increased the fire department inventory
- * **NEW EAST BEACHES FIRE HALL** in partnership with the RM of Alexander; resulted in no money borrowed.
- * **LEGACY PARK** I supported Council in acquired the lands from the Province on a land swap and raised over 100 thousand dollars of cash donations to give for the 125th Legacy Park.
- * **BY-LAW ENFORCEMENT** increased to a full time status which operates on weekends and evenings when required.
- * **NEW PUBLIC WORKS BUILDING** I supported monies that have been saved in the reserves.
- * **GRAND MARAIS COMMUNITY** Central is completed which has been a request of residents in the area for over the last 20 plus years. This building and plan has received funding from upper level government already in the tune of 2 million dollars and is the beginning of huge economical development and the potential of creating over 2 million dollars of commercial tax dollars for the future.
- * **DYKE MITIGATION PROGRAM** I was supportive of the entire flood proofing program having the entire R.M (98 %) flood protected.

St. Clements is a growing community with the addition of the middle year's school and upgrades to the recreation centre. I want to continue working with council on bringing fiscal responsibility and positive growth to our community. Please consider electing me once again to continue making this Municipality A GREAT PLACE TO BE.
