

HOW EDUCATION TAXES FIT INTO YOUR PROPERTY TAX BILL

- Your annual property tax bill includes two parts: municipal taxes (set by the RM) and education taxes (set by the school divisions).
- The RM's share of your taxes pays for services like roads, waste management, water and sewer, recreation, fire protection, and bylaw enforcement.
- The education portion funds the operating budgets of local schools.
- In 2025, approximately 58% of all property taxes collected in St. Clements went to education taxes. This shows how significant the school tax portion is compared to municipal taxes.

UNDERSTANDING YOUR 2025 EDUCATION TAX

A quick guide for RM of St. Clements residents.

Rural Municipality of
St. Clements
The place to be

WHY DID MY SCHOOL TAXES GO UP?

01

The Provincial Government lifted a multi-year school tax rate freeze last year.

02

As a result, school divisions set new education tax rates, which have increased substantially.

03

These decisions are not made by the RM of St. Clements.

THE RM'S ROLE

- The RM of St. Clements is required under the municipal act to collect education taxes on behalf of school divisions.
- The RM has no authority over the school tax rates set by the divisions.

Who sets school tax rates?

School tax rates are determined by your school division trustees. If you have questions or concerns, please contact your trustee directly:
